

Covid-19 Update December 11, 2020

As new public health restrictions come into effect on December 13th, Vista Ridge has made changes to operations. We are committed to the well-being of our guests and staff and want our community to stay healthy through the Holidays and New Year.

Restrictions in effect IMMEDIATELY

****Lessons****

All of our group lessons are suspended immediately, until further notice. Guest services will be reaching out to those that are currently enrolled into **Camp A** to arrange refunds.

Camp B, C & “Bonus Camp” are cancelled and will not be re-scheduled. If you have received a confirmation email regarding camp B registration, please disregard.

Camp D, E & Funday Friday will be reviewed in the new year when current restrictions are reviewed by the province.

Private lessons will be offered and are booked on a week-to-week basis starting on Mondays. (Example – registration opens Monday December 21st for available private lessons between December 21st – December 27th)

****Gatherings****

Inside and outside gatherings with individuals outside of your household are BANNED. This is enforced at our facility and we expect you to abide by these rules. Debate over the matter is not optional.

Restrictions in effect Sunday December 13th, 2020

****Lodge Access****

- Individuals requiring day pass and rental purchases and rental equipment fittings are permitted into the lodge to purchase passes and retrieve rental equipment. You must get ready outside or at your vehicle.
- Washrooms are accessible only from two designated entrances. See staff for direction.
- Cafeteria food can be purchased, but must be brought outside or to your vehicle for consumption.
- All of the tables in the lodge will be removed and no access is permitted outside the above mentioned.
- The Clearwater Lounge will be closed until further notice.

We have had many inquiries about our operations that have not yet opened for the season. The following is the current information we have on our tube park, ice rink and Syncrude Bison chairlift.

****Rink****

Under public health measures coming into effect December 13th, 2020 the Sapræ Creek Rink facility will not be permitted to operate. Although the rink is called an outdoor rink, as it depends on weather to naturally cool and maintain the surface, due to it being enclosed under the tent structure, it falls into the indoor rink category. We will be working to have the surface put in and ready for when/if public health measures are lifted. These measures are in place until at least January 12, 2021.

****Tube Park****

We are working on logistics for operating our tube park safely. Further updates will follow in the coming days/weeks)

****Syncrude Bison Chairlift****

As of December 10th, 2020, we have resumed snow making operations and expect that if the weather cooperates, we can have snowmaking completed before New Years allowing Vista Ridge to open all terrain available for the 2020-2021 season.
